MY SUMMARY

Forward-thinking Computer Science student equipped with strong core programming fundamentals (Java) and structured corporate frontend training. Passionate about the modern JavaScript ecosystem, with a proven track record of moving projects from concept to deployment using TypeScript, React, and modular CSS. Combines formal university education with rigorous self-directed learning and advanced developer tools. Seeking an internship opportunity to accelerate development cycles and deliver user-centric web solutions.

EDUCATION

Lebanese International University (LIU) - Tripoli, Lebanon | Expected Jul 2028

Bachelor of Science in Computer Science

- Second-Year Student

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript

Web Development: HTML5, CSS3, Bootstrap, React.js (in progress)

Core Concepts: Object-Oriented Programming, Data Structures, DOM Manipulation, Problem Solving

Tools: Git, GitHub, VS Code, AI CLI Tools (Codex, Cursor, Ollama Models)

PROJECTS

Smart Note App | [View On Github](#)

- Built a persistent note-taking application using Vanilla JavaScript, HTML5, and CSS3.
- Implemented full CRUD functionality through a modal-based interface with DOM manipulation.
- Integrated localStorage to preserve notes across page reloads.
- Designed a responsive grid layout for multiple screen sizes.

Movie Shelf | [View On GitHub](#)

- Built a movie discovery and management application using React 19, TypeScript, Vite, and React Router.
- Implemented live debounced API search with autocomplete suggestions alongside explicit search query submission.
- Integrated state persistence using the Context API and useReducer, syncing user lists seamlessly with localStorage.
- Designed a fully responsive pure CSS grid layout with custom Error Boundary fallbacks for robust client-side error handling.

TRAINING & COURSEWORK

- Java Programming for Beginners - Completed [\[Link\]](#)
- Object-Oriented Programming (OOP) - Completed [\[Link\]](#)
- Data Structures - Completed [\[Link\]](#)
- Onsite Web Development Training (HTML, CSS, Bootstrap, Git, GitHub) - Nahr al-Bared, North Lebanon - [\[Statement\]](#)

- Frontend Development Training (HTML, CSS, JavaScript, React, Git, GitHub) - Teknova Company – 1 Month to finish.
- Understanding TypeScript - Udemy, Maximilian Schwarzmuller - [\[Certificate\]](#)
- React: The Complete Guide - Udemy, Maximilian Schwarzmuller - In progress [\[Link\]](#)

LANGUAGES

Arabic: Native | **English:** Good working proficiency
